

The Golden Sun

Newsletter december 2018

Dear Friends of the Golden Sun,

Looking back on the past year

Bosnia-Herzegovina

In June, The Golden Sun travelled to Bosnia-Herzegovina via a beautiful pilgrimage, guided by Frouk! The ceremony was held at the midsummer festival in Visoko, in the middle of the pyramids, with which this city is becoming increasingly well known.

Lightweight Golden Sun in Haarlem and Amersfoort

The beautiful lightweight Golden Sun, on moonlight white cloth, is put into use. In Haarlem (Het Lichthuis) and Amersfoort (Het Brandpunt), both in July. Both ceremonies were connected with the trip to Russia, for which the yield is used.

Het Lichthuis, Haarlem

Russia

In August, the lightweight Golden Sun traveled to Russia for a ceremony at the center of Ahamakara, Jekatarinenburg in Russia.

Burrying the Europe Crystal

Following on the ceremony, a small group, including Frouk, traveled to the Belugha Mountain (near the quadripoint of Mongolia, China, Siberia and Kachastane) to bury the Crystal of Europe.

Jekatarinenburg, Russia Belugha Mountain

Frouk

As you all know, it turned out shortly after returning home from Russia that Frouk is sick. At the moment she is very tired but to conditions she makes it pretty good.

Frouk thanks everyone very much for all the healing thoughts, meditations, cards and flowers. It helps her greatly to pursue her development fruitfully.

International Meeting in Zeewolde on November 25th, 2018

In the future the Golden Sun will also travel to other continents. Here the puzzle pieces won't be connected to the European countries, but to qualities that have to do with peace and connection.

Naming these 52 qualities was theme of the day, on the first international meeting of the Golden Sun, held in Zeewolde on november 25th. First we brainstormed in small groups. We found 52 qualities/words and wrote them on strips of paper. With these new words we held a ceremony. That was very special. No longer tied to one location, the words gave a wide bedding to the interpersonal dynamics and shaping peace and connection. Words like honor, unity, tolerance, understanding differences, earthing etc. etc. A wonderful new content of the Golden Sun!

Prospect for 2019

- On Sunday May 5th next year a ceremony is planned in Delphi, Greece.
- There is a need for volunteers who want to use their talents for the development of the Golden Sun. If you are interested please contact Peter Pieteron, President of the Foundation (committee@thegoldensun.eu).

Christmas message from Frouk

'I wish everyone great, heartwarming Christmas days, in which each encounter with anyone may be in the Now and in peace. That the days between Christmas and New Year may give a consciousness-expanding look over the past year, so the new year will give lots of special opportunities. '

We agree on that!

We wish Frouk all the best and send her the light of the Golden Sun!

Kind regards on behalf of Frouk
